

K CHANDRA PRAVEEN

Automation & Smart Manufacturing Engineer

✉ c25smg033@namtech.ac ☎ +91 8688087208

📍 East Godavari District, Andhra Pradesh

CAREER OBJECTIVE

Engineering graduate with hands-on experience in automation, PLC Programming, HMI, MES, Smart Sensors, and data-driven manufacturing solutions. Seeking a role in automation and smart manufacturing where I can contribute to equipment integration, system readiness, process optimization, and continuous improvement through practical engineering and data-driven problem-solving.

INTERNSHIP

06/2023 – 08/2023 Warangal, Telangana, India.	National Institute of Technology, Warangal , Research Intern Developed PID-based speed control for a DC shunt motor on ESP32, conducting experimental analysis under academic mentorship.
--	--

EDUCATION

08/2025 – Present Gandhinagar, Gujarat, India.	New Age Maker's Institute of Technology iPMP in Smart Manufacturing and AI	CGPA - 8.00
12/2021 – 05/2025 Tadepalligudem, Andhra Pradesh, India.	National Institute of Technology, Andhra Pradesh B.Tech in Electrical and Electronics Engineering	CGPA - 7.16
06/2019 – 05/2021 Rajahmundry, India.	Tirumala Jr College HSC	Percentage - 98.2%
06/2018 – 04/2019 Tanuku, Andhra Pradesh, India.	Dr. K. K. R. Gowtham School SSC	CGPA - 10.0

PROJECTS

03/2026 – 03/2026	Smart Sensor-Based Conveyor Automation with Real-Time Monitoring - Integrated smart sensors and IO-Link architecture for automated part detection and classification. - Developed conveyor control logic for automated movement and end-of-line stopping. - Enabled real-time monitoring and part tracking through Node-RED dashboards and database logging.
04/2026 – 04/2026	Scalance-based Industrial Network Infrastructure & OT-IT Connectivity - Configured Inter-VLAN routing and security settings using Siemens Scalance hardware to isolate and protect production traffic. - Established a secure IPSec VPN tunnel to enable encrypted data communication between local factory devices and the cloud. - Implemented NETMAP rules for secure address mapping and configured Ring Redundancy to ensure continuous network availability.

MES-Based Production Flow Optimization in a Cyber-Physical Manufacturing System

- Identified a throughput bottleneck in a cyber-physical production system handling multiple order positions.
- Redesigned MES-based routing logic to balance execution across parallel paths.
- Reduced flow congestion and improved cycle-time performance through production flow optimization.

SKILLS

Automation & Controls

- PLC Programming (TIA Portal, RSLogix 500)
- HMI (TIA Portal)
- Smart Sensor Integration

Industrial Data & Monitoring

- Node-RED (SCADA)
- Grafana
- OPC-UA
- MySQL, InfluxDB (Database)
- Python Basics (Data Analytics)

Automation Technologies

- Energy Monitoring Systems
- IoT Gateway
- Augmented Reality (AR)

Manufacturing Systems

- MES & Webshop (FactoryViews)
- Digital Twin & Digital Shadow (CIROS)

Industrial Networking

- Inter-VLAN Routing
- Firewall Policy Configuration
- VPN Establishment
- NAT / Netmap
- DHCP Configuration

Project Execution & Management (MS Project)

- Project Scheduling
- Gantt Charts
- Resource Allocation
- Product Lifecycle Management

CERTIFICATIONS

PLC PROGRAMMING

- PLC Programming – Level 1
- Applied Logic – Level 2

Soft skills - NPTEL, IIT Kanpur

ACHIEVEMENTS

04/2026	Medallion of Excellence , NSDC IndiaSkills Nationals Competition – Industry 4.0
02/2026	Silver Medal , NSDC IndiaSkills South Regionals– Industry 4.0
12/2025	Silver Medal , APSSDC IndiaSkills Andhra Pradesh State Competition– Industry 4.0

EXTRA-CURRICULAR ACTIVITIES

Participation in All India INTER-NIT Badminton Tournament

Captain of Team NIT Andhra Pradesh

- Led team to Top 8 out of 24 NITs.
